The first number on each line is the card number in Gromacki's *Greek Vocabulary Cards* (where it is included; not all words are since these cards are intended for NT vocab.). The number at the end of the line is the actual frequency of this word in the LXX. This is based on the figures given in Lust, Eynikel, and Hauspie, *Greek-English Lexicon of the Septuagint*, 2d ed. (Stuttgart: Deutsche Bibelgesellschaft, 2003). Glosses given reflect, in many cases, NT glosses (since this list is generated from a database that originated as a NT vocab tool). Words that do not occur in the NT, do, however, reflect LXX usage. Later editions of this list will make adjustments of this as necessary. Corrections and suggestions are welcome. The use of semicolons and commas in the gloss listing functions the same as in a standard lexicon in distinguishing semantic fields, etc.
